

Energy Efficiency and Alternative Energy Retrofit Training

Provider: Yuut Elitnaurviat

Length: 9 Days

Cost: \$400

Cost Unit: Cost of the entire program

Website

<http://www.yuut.org/construction-classes/>

Using a telescoping forklift, the class will focus on converting elevated electrical use fixtures to energy efficient fixtures after becoming trained in the safe operation of said forklift. The training will explore other energy saving options such as the installation and wiring of programmable thermostats.
